

## **Earth Sciences students winning prizes<sup>1</sup>**

### **Congratulations to our students who have recently won prizes.**

Clare Donaldson won an “Outstanding Student Presentation Award” at the recent Fall AGU meeting.

At the January joint assembly of the Tectonic Studies Group, the Volcanic and Magmatic Studies Group, and the British Geophysical Association in Liverpool, Cambridge Earth Scientists were awarded the following:

- Rob Green won the Nature Communications best Postdoctoral Talk award
- Jenny Jenkins won the BGA best Student Talk award, with Tom Hudson getting an honourable mention
- Victoria Honour won the VMSG best Student Talk award, with Simon Matthews getting an honourable mention.

Callum Reekie won the best poster prize at the Mineral Deposits Studies Group meeting for his poster entitled “Geochemical and Lu-Hf isotopic constraints on the petrogenesis of Ta-mineralisation in the Gardar rift: The Motzfeldt Centre, South Greenland.”

Well done them!
